

Federico José Rotman is the Vice President of Hatchery Operations and has been working in the field of marine fish culture for over 20 years. In 2001, he completed a master's degree from the University of Miami's Rosenstiel School of Marine and Atmospheric Sciences and has been involved with commercial and research marine fish aquaculture since. He has extensive experience with the culture of many marine species. Federico has been a commercial hatchery manager in Kailua-Kona, Hawai'i, a national and international aquaculture consultant, and a Research Scientist at Hubbs-SeaWorld Research Institute. Federico is currently the Vice President of Hatchery Operations at Blue Ocean Mariculture. In his spare time, Federico tries to spend as much time in, on or near the water surfing, camping, and exploring Hawai'i's natural surroundings.
